# Domain Timber Advisors Welcomes \$225M of Investor Commitments

Funding establishes new partnerships and enhances opportunities to acquire and manage additional timberland assets

ATLANTA, GA, September 12, 2023 — Domain Capital Group, LLC, a comprehensive private investment management services firm, and its subsidiary, Domain Timber Advisors, LLC, today announced the closing of \$225 million in recent capital commitments across Domain’s value-added timberland investment strategy.

The commitments include \$150 million allocated to a separately managed account and \$75 million to the Domain Timber Opportunity Fund (DТОF), which held its final close in June. Investors represent sovereign wealth funds, public and private pensions, insurance companies, and family-owned wealth management interests from the United States, Europe, and Australasia.

“We are pleased to have exceeded the fundraising target for our value-added investment strategy,” said Patrick Neuman, director of business development at Domain Capital Group. “The commitments are especially gratifying because they represent new investor relationships. We are humbled by their trust, look forward to meeting their expectations and advancing a long and mutually beneficial partnership.”

Domain’s value-added timberland strategy is characterized by the sourcing of non-industrial, degraded or under-utilized timberland. The company has a long history of success in managing such tracts and achieving both economic and environmental uplift through property improvements and the ultimate aggregation of the acquisitions.

“Investors appreciate our lower middle market approach and the years spent on the development of the strategy.” Neuman added, “It is exciting to see the team’s hard work and efforts pay off.”
